Complimentary Factory-Recommended Oil and Filter Service

With every Scion, you will receive a complimentary oil and filter service which can be redeemed at any Scion or Toyota dealership.

GRAD PROGRAM

FOR QUALIFYING GRADS
scion.ca/grad

What better way to celebrate the end of all those late night study sessions, early morning classes and final exams than with a brand new Scion? We have put together the Scion Graduate Allowance Program to assist you after all of your hard work. As a qualifying graduate, you can receive money towards the purchase or lease of a new Scion.

In addition, if you lease or finance through Toyota Financial Services (TFS), you may also be eligible for the TFS Grad Program. This program helps to put approved graduates behind the wheel—even without an established credit history, provide a reduction to your lease or finance rate in addition to the Scion posted rate, and waive the security deposit for graduates that prefer to lease.

Visit www.scion.ca/grad for complete details.

DISCLAIMERS (1) Driving while distracted can result in loss of vehicle control. Always drive safely, obey traffic laws and focus on the road and traffic conditions while driving. (2) All Scion vehicles shown in this brochure, have Supplemental Restraint Systems (SRS). For important safety information about the Supplemental Restraint System in a particular vehicle, please see the Owner's Manual or contact your local Scion Dealer. (3) Fuel Consumption Rating: Fuel efficiency estimates were determined using approved Government of Canada Test Methods. Actual fuel consumption will vary based on driving habits and other factors. (4) Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. (5) Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. (6) Smart Stop Technology operates only in the event of certain simultaneous brake and gas pedal applications. When engaged, the system will reduce engine power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions and driver input can all impact stopping distance. Smart Stop Technology is not a substitute for safe and attentive driving and does not guarantee instant stopping. (7) Scion tests certain Bluetooth® capable phones for compatibility with Scion vehicles. Note that the recommendation of Scion is not a warranty of the performance for any phone and that some problems may occur with any type of handset based on the phone software version or the service coverage available in your area. Some vehicles equipped with Bluetooth® technology are available with bilingual compatibility. Please see your Scion Dealer for details. (8) The Scion Navigation System is designed to assist in locating an address or point of interest. Discrepancies may be encountered between the system and your actual location. Rely on your common sense to decide whether or not to follow a specified route. Detailed coverage is not available for every city or roadway. Optional periodic geographic updates are available at an additional cost. The Navigational systems in some vehicles are available with bilingual capability. Please see your Navigation System Owner's Manual and your Scion Dealer for further details. (9) Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher.

Scion reminds you to place small children in CSA-approved car seats – in the rear seats, to always wear your seatbelts, and to drive safely. For further information about vehicle features & options, and important safety information, please see the Owner's Manual or contact your local Dealer.

Scion Canada. Every effort has been made to ensure the specifications and equipment shown are accurate based on information available at time of printing. In some cases, certain changes in production capacity, standard equipment, options or product delays may occur which would not be reflected in this brochure. Scion Canada reserves the right to make these changes without notice or obligation. The Scion website scion.ca – or your Scion Dealer is your best source for up-to-date information.
