

Jeep®

2006 JEEP WRANGLER

Like its predecessors, the Wrangler Unlimited is designed to keep its wheels firmly planted on the ground—even when one or more may be climbing an obstacle.

Jeep

WRANGLER FEATURES

ADVENTURES IN COMFORT

Wrangler's interior is comfortable and full of available safety and security features (see Specs for more safety information). Sedona cloth seats shown. Remember to secure all cargo properly.

WIND IN YOUR HAIR FREEDOM

Wrangler has spent the last 60 years as the only true convertible 4x4—and it's just one reason why the Wrangler experience can't be matched. Taking the top off makes life a little more adventurous and lets you become one with the elements. That's the true spirit of Wrangler.

CAGE MATCH

You drive Wrangler in some pretty inhospitable places, so it's nice to know you're protected by its safety cage made of high-strength alloy steel that surrounds and helps protect occupants.

HARD OR SOFT TOP? BOTH!

Help protect yourself from the elements with the available full hard doors and composite hard top for the winter months; unzip the soft top in the summer. This option allows you to experience the ultimate in flexibility.

EASY WASH OUT INTERIOR

Drain Plug? Yep. Right in the floor. So if you get a little carried away on the trail, just remove the carpet and wash out the floor and the water resistant seats. Nifty, huh?

Jeep®

WRANGLER OFF-ROAD

TWO DOMINANT 4X4 SYSTEMS

Like every other Jeep® vehicle, the Wrangler Unlimited had to earn its Trail Rated badge, and the Command Trac® part-time four-wheel-drive system help make it part of the family.

TRIED AND TRUE SUSPENSION

The Quadra-Coil™ suspension system commands the terrain with live solid axles, coil springs and gas-charged shock absorbers. It's tough. And time-tested.

A HERO'S TRAIL

It all started with the Willys MB, a 4x4 so vital to the Allies in the WWII that General Eisenhower declared that the war could not have been won without it.

For more information, please visit www.jeep.com/wrangler

GROUND CLEARANCE

At curb weight, it has an impressive 8.8 inches of ground clearance, 41.8° approach angle, a 31.3° departure angle and a breakover angle of 22.3. Bring on the terrain.

POWER PACKED ENGINE

The 4.0L I-6 (shown) develops nearly 85 percent of its usable torque at idle, making it a supreme choice for 4WD situations. The 2.4L I-4 has 147 horsepowers.

¹¹ There are special cooling requirements for non factory-installed air conditioning. Failure to follow these requirements may invalidate warranty.

¹² Certified to the Federal Regulations that allow less forceful front air bags. Always use seat belts. Children 12 and under should always be in a backseat correctly using an infant or child restraint system, or the seat belt positioned correctly for the child's age and weight.
