Description

Manual/Documents

Warranty

This product is not legal for sale in California. Please refer to our product policy page here: [Green Diesel Engineering Product Policy](#)

- Fuel Economy improvements 3-5mpg
- Very broad torque/performance curve for better drivability
- For more contents of the GDE Tune visit the [EcoDiesel Performance Data page](#)

For all orders please see this link of additional information required in order to complete the fulfillment.

Please also be informed that:

- Please note that the flash programmer tool seen on our website cannot be used for installing the tune on EcoDiesel ECUs. This application is bench flash only.
- New ECMs from Mopar are **blank**: there is no software flashed inside and these ECMs are not capable to run the engine/vehicle as-is. They **must** be configured first.
- If mailing in an ECM for tuning that is blank or not the original from your vehicle, a \$150 setup fee applies to have the necessary steps performed before tuning can be done
- Blank ECMs or one not from your vehicle returned for the core deposit will be assessed the same \$150 setup fee

Also visit our forum for additional information: [GDE Forum - Jeep Grand Cherokee EcoDiesel](#)

Additional tune option details can be found at the below links:

- [Engine Braking](#)
- [Regen Messaging](#)
- [Automatic High Idle](#)

Ecodiesel customers opting for the exchange program must return the stock ecm from customer vehicle within 21 days in order to receive the full core deposit refund. After that, the core return value is decreased by \$50 per week starting from day 22 after the delivery date.

For full warranty/return info please see this page: [GDE Warranty & Returns](#)
