

The all-new 2007
BMW 3 Series
Coupe

The Ultimate
Driving Machine®

328i
328xi
335i

**BMW introduces a revolution in power.
The all-new 3 Series Coupe for 2007.**

**BMW's take
on freedom of
expression.**

**It will take you from 0 – 60 in 5.3 seconds.¹
It will thrill you even faster.**

¹335i with manual transmission; 5.5 seconds, STEPTRONIC automatic transmission.
BMW AG test results. Obey local speed laws and always wear safety belts.

**Designed to take your breath away.
Even before you drive it.**

**The 3 Series Coupe
cockpit: your power
connection with the road.**

The best way to experience adrenaline-charged performance: in comfort.

■ Standard equipment

□ Optional equipment

■ **Xenon Adaptive Headlights** provide brilliant clarity of the road ahead and to the side at night and in conditions with poor visibility. The dynamic auto-leveling feature adjusts for varying passenger and cargo loads, helping to keep headlight glare out of the eyes of oncoming drivers. BMW Adaptive Headlights provide optimum road illumination around corners, thanks to an electromechanical control system that directs the headlights into and around the bend as soon as the vehicle begins cornering. The Corona light-rings that circle both headlights and high beams also act separately as Daytime Running Lights¹ and parking lights.

¹ See your authorized BMW center to program your Daytime Running Lights.

■ **Halogen free-form foglights**, integrated into the deep front spoiler, enhance your margin of safety in bad visibility. Ellipsoid free-form technology ensures even light distribution on the road.

■ **Adaptive Brake Lights** increase vehicle visibility and signal the intensity of your braking action.

■ BMW's **distinctive front kidney-shaped grille** features a chrome surround and vertical slats on all 3 Series Coupes.

■ **Roof rail clips and grooves** are designed for the BMW Accessory roof rail system, holding it perfectly in place.

■ Standard equipment

□ Optional equipment

□ **Star Spoke (Style 189) light-alloy wheels and run-flat¹ performance tires.²** In front: 18 x 8.0 wheels and 225/40R-18 tires; in back: 18 x 8.5 wheels and 255/35R-18 tires.³ (included in 335i Sport Package)

■ **17 x 8.0 Star Spoke (Style 157) light-alloy wheels with 225/45R-17 run-flat¹ all-season tires.** (std. on 328i/328xi)

■ / □ **17 x 8.0 Star Spoke (Style 185) light-alloy wheels with 225/45R-17 run-flat¹ all-season tires.** (std. on 335i; included in 328xi Sport Package)

□ **Cross Spoke (Style 197) light-alloy wheels and run-flat¹ performance tires.²** In front: 18 x 8.0 wheels and 225/40R-18 tires; in back: 18 x 8.5 wheels and 255/35R-18 tires.³ (included in 328i Sport Package; opt. on 328xi, requires optional Sport Package)

¹Run-flat tires do not come equipped with a spare tire.

²Performance tires not recommended for driving in ice and snow.

³Due to low-profile tires, wheels, tires and suspension parts are more susceptible to road hazard and consequential damages.

³Availability delayed until September 2006 production.

⁴Metallic exterior paint is optional.

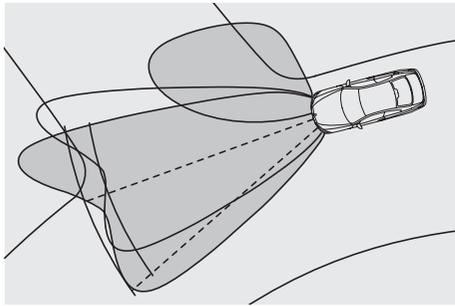

⁵Availability delayed until December 2006 production.

⁶Dark Burl Walnut Wood trim: Standard in 328i/328xi and 335i.

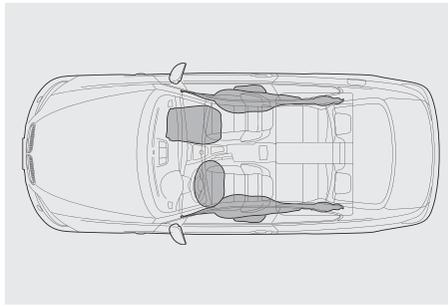

⁷Light Poplar Natural Wood trim, Gray Poplar Wood trim, and Brushed Aluminum trim: No-cost options in 328i/328xi and 335i.

■ Standard equipment

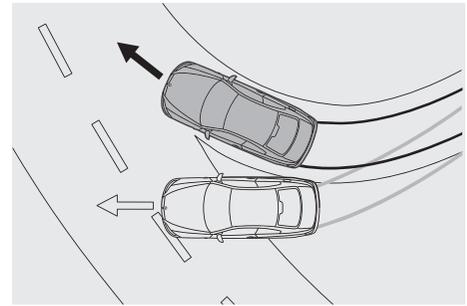

□ Optional equipment

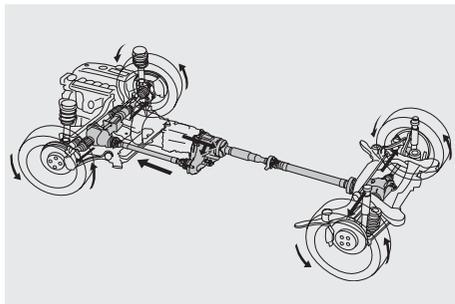

Xenon Adaptive Headlights illuminate the road ahead and to the side with brilliant clarity; Xenon headlights also have a dynamic auto-leveling feature. **BMW Adaptive Headlights** illuminate the road around corners by directing the headlights into and through the bend, as soon as the vehicle begins cornering.

Six airbags, part of BMW's Advanced Crash Safety Management system, include "smart" dual-stage, dual-threshold front airbags that deploy at different forces, depending upon whether or not safety belts are worn; front-to-rear Head Protection System curtain-type airbags; and front-seat-mounted side-impact airbags.

Dynamic Stability Control (DSC) with Dynamic Traction Control (DTC) features Brake Drying, Brake Stand-by, Brake Fade Compensation and Start-off Assistant. DSC is a braking control system that, when it senses an impending skid, helps to stabilize the 3 Series Coupe in just milliseconds. For sportier driving or in deep snow, the DTC system allows increased wheel slip.

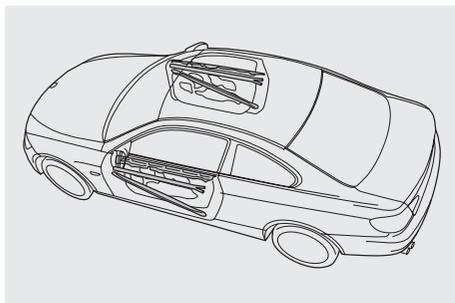

xDrive all-wheel drive system monitors readings from the DSC sensors and the gas pedal to determine if over- or understeer is occurring. This data is then used to continually vary power distribution between the front and rear axles, ensuring agile, neutral and forgiving handling at all times. (standard in 328xi; not available in 328i or 335i)

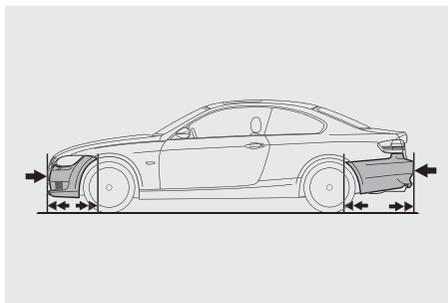

BMW restraint system for the driver and front passenger consists of a three-point safety belt, safety belt pretensioner and force limiter, all working in tandem for optimal protection in the event of an impact.

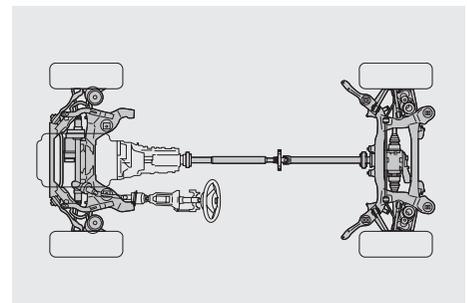

Run-flat tires allow speeds of up to 50 mph and travel up to 150 miles after a loss of air pressure. In situations that would normally result in a flat, reinforced sidewalls help prevent the tires from collapsing or loosening from the rim.

BMW's door-anchoring system includes a reinforcing bar with a hook-like member within each door. In a severe side impact, the reinforcing bar hooks the door to the body, locking them together to make a more rigid passenger cell. When the pressure is released, the anchoring system is designed to snap back so that the doors can open.

Impact-absorbing bumpers and compressible "crush tubes" front and rear help absorb the force of impact in collisions up to nine mph, helping to minimize damage to the vehicle's body and simplifying repairs. Only at higher impact speeds do structural supports begin to deform, dissipating impact energy to help protect occupants.

Innovative chassis is constructed using the latest technology in steel production. Using a stronger steel than before for the chassis results in a smoother ride, remarkable handling and enhanced active and passive safety.
