Garage Door Opener

1 While the car is ON, hold the handheld garage door transmitter 1-3 inches from the HomeLink® button you want to program in the vehicle.

2 Push and hold both the HomeLink® button being programmed and the button on the garage door transmitter.

TO ERASE ALL SET CHANNELS:

Push and hold the two outside HomeLink® buttons for 20 seconds until the orange indicator flashes. An individual channel cannot be erased.

ROLLING OR NON-ROLLING?

Check your garage door opener motor in your garage for a “LEARN” or “TRAIN” button by the hanging antenna. If you have one of these, you have a Rolling Code garage door opener.

3

For Non-Rolling Code garage door openers, watch for the indicator light to go constant.

For Rolling Code garage door openers, watch for the indicator light to go from a slow blink to blinking rapidly.

4

For Rolling Code garage door openers only, firmly push and release the “LEARN” or “TRAIN” button on your garage door opener motor in your garage, then push the HomeLink® button in your vehicle for two long presses.

5

If the programming was successful, your garage door should open and close with your chosen HomeLink® button.

NEED ASSISTANCE?

1-800-355-3515

Pair a Phone

- 1** Make sure Bluetooth® is enabled on your mobile device
- 2** With the vehicle in the ACC or ON/RUN position, select the Settings tab and then "Infotainment"
- 3** Press "Bluetooth®"
- 4** Select "Add Device", then follow the prompts on your phone and on the touchscreen

CONNECT YOUR APPS

Connect your smartphone to the media USB port.

The Android Auto™ or Apple CarPlay® icon will launch on the touchscreen.

KEEP IN MIND:

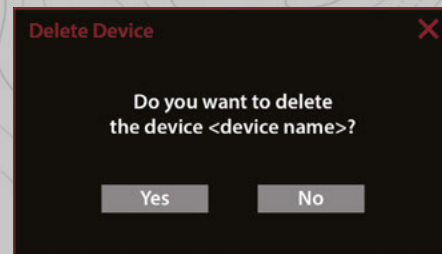

For Android™ Users, if the Android Auto™ app was not previously downloaded, it will download the first time you plug in your device.

For Apple® Users, Apple CarPlay® is only compatible with iPhone® 5 or later and requires Siri being enabled in "Settings".

Ready to remove a phone or audio device?

- 1** Press the Settings tab.
- 2** Press "Infotainment" and then "Bluetooth®".
- 3** Select the desired Bluetooth® device.
- 4** Press "Remove Device". The device will be removed.
